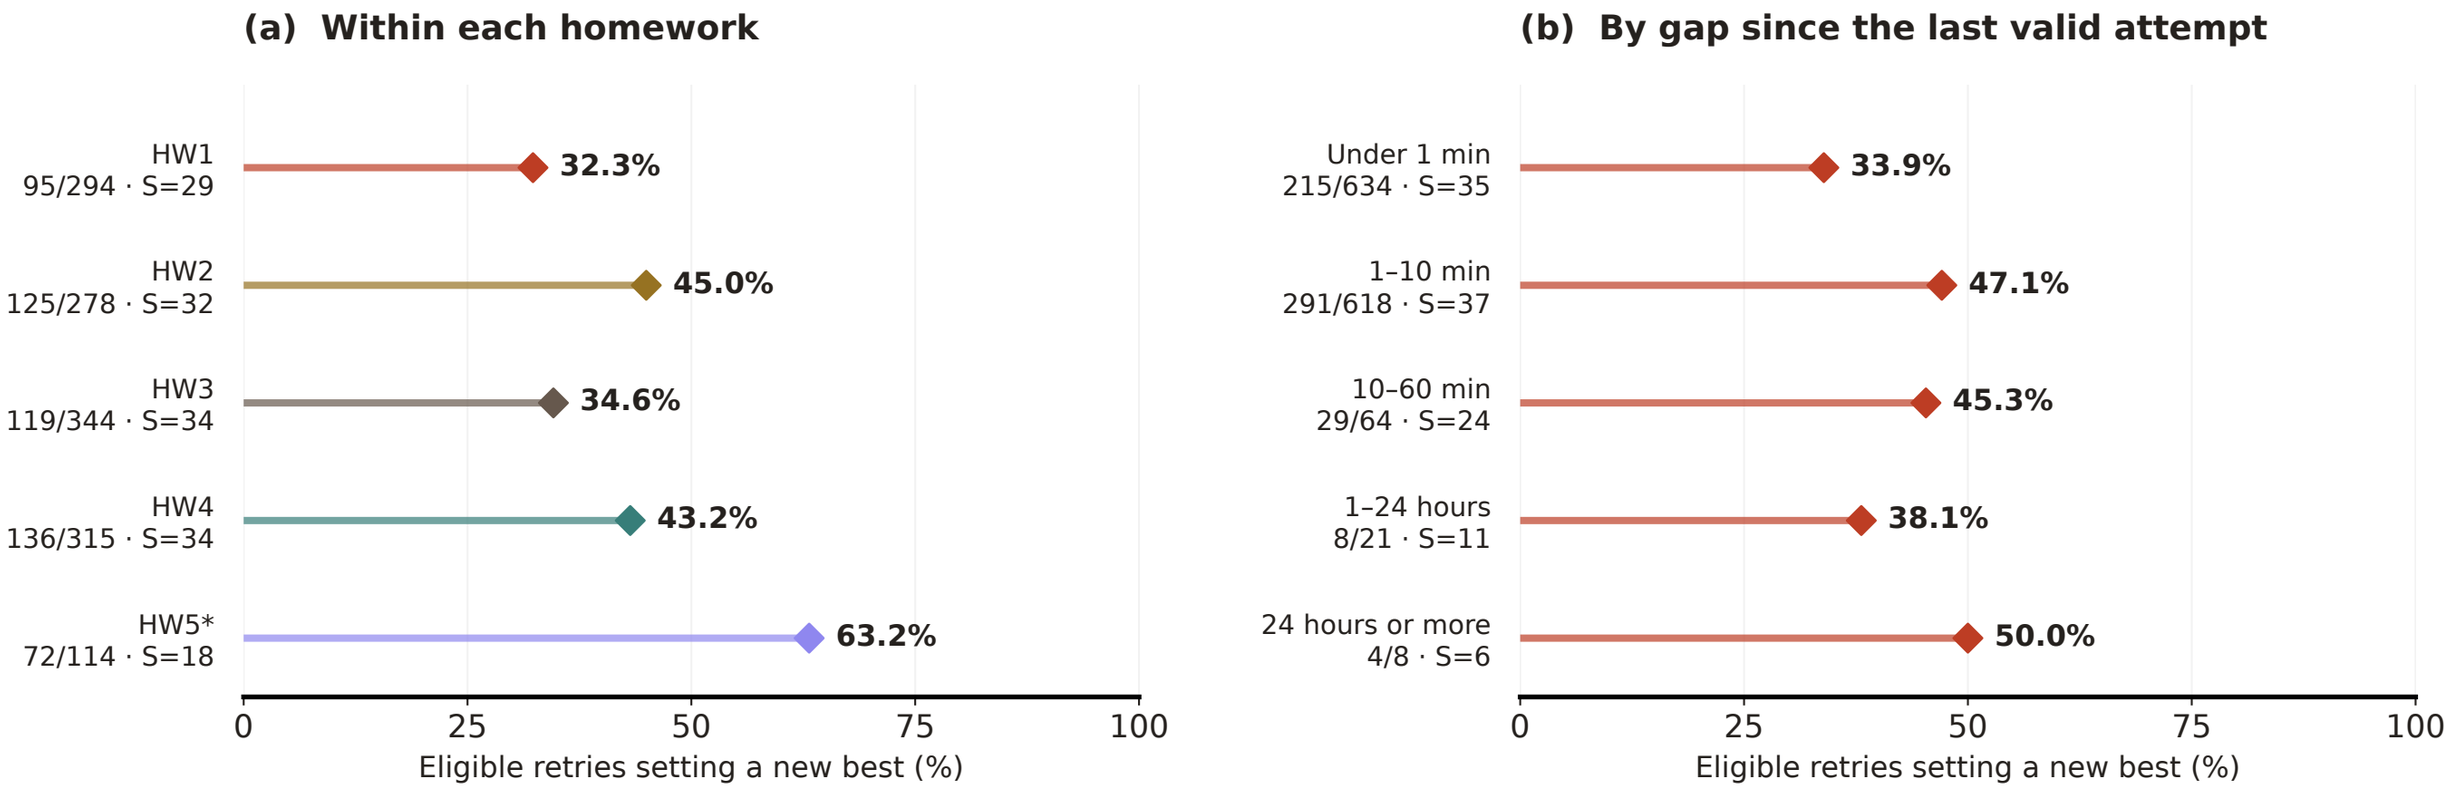
Does a retry set a new personal best?

New best / eligible retries · S = distinct eligible contributors



Eligible: a scored retry while the prior within-window best is below 100.
Strict improvement only; first scores, internal errors and retries after full credit are excluded.
Gap bins are clock time, not study time. Events repeat within students; no causal comparison.
Long-gap percentages have small denominators. Read counts alongside rates.
* HW5 unfinished; configured deadline 18 Oct 23:59 Beijing
